The ITSF is the world governing body of table soccer. It conducts the administering and regulation of the game through its affiliated national associations/federations. The ITSF is responsible for the Rules of table soccer, as well as the technical specifications for tables. It also participates in the running and enforcement of an anti-doping program. The ITSF sanctions 80+ major international table soccer events for all age groups and for disabled people, including 5 annual World Championships Series events on the 5 ITSF official styles of tables, Continental cups and World Cup & World championships. www.tablesoccer.org
